Workshop
WATERS FOR A CAPITAL
The Water Supply Systems of Byzantine Istanbul/Constantinople:
New Approaches and Methodologies
10 November 2012, Saturday

Chair: Marie-France Auzépy, Emerita, Université de Paris 8

09.30-09.40 Welcoming Speech and Introduction to the Water Supply Project
James Crow, Univ. of Edinburgh, UK;
Derya Maktav, Geomatics Engineering Dept., İTÜ, Turkey

09.40-10.00 Challenges for Future Researches on the Water supply of Byzantine and Ottoman Constantinople,
James Crow, University of Edinburgh, UK

10.00-10.30 Temples, Churches, and Cisterns: Water Management in Post-Roman,
Jordan Pickett, Jarash. Kolb Junior Fellow, Art and Archaeology of the Mediterranean World, University of Pennsylvania, USA

10.30-11.00 ‘The Wonderful Works’: Quantifying the Construction materials of the Water Supply System of Constantinople,
Riley Snyder, British Institute at Ankara / University of Edinburgh

11.00-11.30 Coffee break

11.30-12.00 Some Byzantine Substructures Related to the Water Supply of Ancient Istanbul-Constantinople,
Ferudun Özgümüş, Fine Arts Dept., Istanbul University, Turkey

12.00-12.30 Water Across the Waters: The Asian Hinterland of Byzantine Constantinople,
Alessandra Ricci, Dept. of Archaeology and History of Art, Koç University, Turkey

12.30-13.00 A Review of Some Byzantine Cisterns in Istanbul,
Kerim Altuğ, History of Architecture Dept., İTÜ, Turkey

13.00-14.30 Lunch
Chair: Caroline Finkel, Independent Scholar, Honorary Fellow, Dept. of Archaeology, Univ. of Edinburgh

14.30-15.00 Changing Rhetoric of Necessity: The New Regulations of Waterworks Construction in Istanbul at the Dawn of the Eighteenth-Century,
Deniz Karakaş, Binghamton University -SUNY

15.00-15.30 Twenty Four Centuries of Hydraulic Alexandria,
Isabelle Hairy, Centre d'Etudes Alexandrines, CNRS, Paris

15.30-16.00 Coffee break

16.00-16.30 Space Technologies for Investigation of Byzantine Castle Aydos in Istanbul,
Cengiz Erdoğan, Akropol Engineering, Turkey; Derya Maktav, Geomatics Engineering Dept., İTÜ, Turkey

16.30-17.00 Investigating Ancient Nasca Aqueducts by Multitemporal Aster Data,
Rosa Lasaponara, IMAA-CNR, EARSeL, Italy

17.00-17.30 Closing Remarks,
James Crow, University of Edinburgh, UK; Derya Maktav, Geomatics Engineering Dept., İTÜ, Turkey

The language of the workshop will be in English and the workshop will be open to the public.

Place: Koç Üniversitesi AnaMed / RCAC Auditorium
İstiklal Cad. no.181 Merkez Han 34433 Beyoğlu
İSTANBUL – TÜRKİYE
www.rcac.ku.edu.tr

Time: Saturday, 10 November / 09.30-17.30

Conference sponsored by Koç University’s Research Center for Anatolian Civilization (RCAC), İstanbul Technical University (İTÜ) and University of Edinburgh
